SHEEN MICHAEL AKING

Cebu City, Philippines • 09777870848 • sheenaking2017.sa@gmail.com

PROFESSIONAL SUMMARY

Fullstack Developer with 9 years of professional experience designing, building, and maintaining robust web applications, enterprise systems, and automated automation workflows. Proficient in modern frontend and backend architectures using React, Next.js, Laravel, .NET Core, and Python. Adept at leveraging AI-assisted development tools (Cursor, Claude, Gemini) to accelerate feature delivery, optimize codebases, and modernize existing systems.

TECHNICAL SKILLS

Languages: C#, PHP (Legacy & Modern), JavaScript, TypeScript, SQL, Python, HTML5, CSS3

Frontend: React, Angular 8, Vue 3, Tailwind CSS, DevExpress, jQuery, AJAX

Backend: .NET Core 3.1/5/8, Node.js, Laravel 6, REST API Integration, Microservices, Stored Procedures, SQL Server, MySQL, PostgreSQL

Tools & DevOps: Docker, WSL, Ubuntu/Linux, Git, GitHub, GitLab, IIS, SSRS, PuTTY, WinSCP, Figma, bitbucket

AI: Leveraged AI-assisted development tools (Cursor, Claude, Gemini and etc.) to optimize complex backend logic and refactor legacy code, significantly reducing code complexity and review turnarounds.

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER — Aug 2021 – Present

Cody Web Development

- **HRIS Engineering:** Engineered responsive React frontend interfaces for employee tracking and payroll dashboards, reducing UI rendering latency and improving daily workflow efficiency for HR users.
- **Queue Management System:** Built a real-time React queue management frontend handling peak traffic spikes, decreasing average customer wait-time visual lag and optimizing ticket routing.
- **Healthcare Web Applications:** Developed scalable, web-based healthcare features using Node.js and React, ensuring seamless UI/UX and data privacy compliance.
- **Financial Reporting Systems:** Refactored complex SQL stored procedures and backend .NET APIs for accounting modules, cutting query execution times and delivering zero-reconciliation reporting error rates.
- **E-Commerce Infrastructure:** Stabilized a high-traffic Japanese e-commerce platform by diagnosing root-cause PHP/database bottleneck failures, reducing HTTP 500 server errors and raising platform uptime.
- **Corporate Replatforming:** Migrated enterprise marketing sites from Wix to custom WordPress themes, engineering modular PHP components that boosted PageSpeed scores and search indexing performance.

WEB DEVELOPER — Oct 2016 – Feb 2019 (Full-time); Mar 2021 – Oct 2025 (Part-time)

Evotech Software Solutions

- **White-Label CMS Solutions:** Deployed and customized white-label WordPress sites across multiple domains, utilizing Elementor, Divi, and custom CSS to deliver responsive, brand-specific, mobile-first designs.
- **Web Scraping Architecture:** Re-engineered Python Playwright data extraction pipelines by implementing structured error logging and dynamic retry handling, increasing scrape success rates across target Amazon endpoints.
- **Fullstack Web Applications:** Maintained production Laravel 6 and Vue 3 web applications, refactoring reactive components and REST API endpoints to support real-time data sync.
- **Testing & Quality:** Maintained PHP test coverage with PHPUnit and conducted cross-browser performance testing to ensure seamless user experiences.
- **Design Implementation:** Transformed Figma prototypes into high-fidelity UI components, ensuring accessibility and cross-browser compatibility.

SOFTWARE ENGINEER — Feb 2019 – Aug 2021

N-PAX Cebu Corporation

- **Manufacturing Systems:** Maintained the Auto PCR System for manufacturing; executed data housekeeping and optimized system speed by archiving legacy records.
- **System Knowledge Architecture:** Authored comprehensive technical architecture documentation and system runbooks, streamlining onboarding time for new engineering hires.
- **Client Relations:** Acted as the primary technical contact for clients, leading weekly meetings and providing expert software recommendations.

EDUCATION

Bachelor of Science in Information Technology

University of Cebu – Banilad Campus, Cebu City, Philippines
